Samantha Cole, I'm Right Here

Rick Nowels, Billy Steinberg, Deborah Coc, Lascekkes Stephens

When I was on the dark side of the street
You turned you love light on so I could see
When I lost faith in myself and humanity
You wre the one who gave it back to me
Now there's pain in your eryes
As you try to giht back all the tears

Maybe you can't see I'm right here
Don't be ashamed if you want somebody near
Look over your shoulder, the way is clear
All you gotta do is say my name, I'm right here

you don't always havet o be under control
Sometimes you have to lose it to find your soul
And your reaction is to run and hide
Well I know how it feels to be facing
Everything you fear

Oh, when the weight on your becomes too
much to bear
Let me help you with it, don't despair
