

Sammie, Let It Ride

[Verse 1:]

I thought we was the same
Baby had the same mind
You and me we came
Baby at the same time
It took a while to love you
but I had to make you mine
Glad I found someone that's right
But I started hearing rumors
and I didn't like their sound
Said you had another life
way cross town
I put a lot of honesty and trust into you
And now I'm really thinking 'bout all girls I lied to

[Chorus:]

A lie don't care who tell it, baby
All the time I thought you was my lady
I try to be without but it drives me crazy
There's only one thing to do

I gotta let it ride, let it ride
let it ride...
I gotta let it ride, let it ride
That's the only thing that I can do

[Verse 2:]

Maybe I jumped in too fast
Should've took my time
But I was so excited that you wanted to be mine
Girl I was straight with you
I didn't play no games stayed true
Even when my boys said that I was a fool

[Chorus]

[Bridge:]

I gotta let it ride, let it ride
let it ride...
I gotta let it ride, let it ride
let it ride
That's the only thing that I can do
[repeat]

[Chorus x2]
