

Sammy Hagar, Swept Away

Soft wind blowing her hair into my face
Eyes still showing

Look at shadows dancing on the beach
Still horizons all within our reach
Sun still glowing underneath the sea
Love just growing

One night and I'm hooked over you
One kiss and there's nothing I can do
First love, she had to be so far away
First time I've been swept away

Spanish islands dot the better dream
Turquoise waters throw me back again
When I'm dreaming something takes me there
She's there waiting

One night, yeah, and I'm hooked over you
Just one kiss and there's nothing I can do
First love and she just had to be so far away
Oh, first time I've been swept away

I've been swept away
I've been swept away
I've been swept away

Love worth keeping, takes you by surprise
Untold promises cost the same
I know better, still I pay the price
She's there waiting

One night, oh yeah, and I'm hooked on you
Just one kiss and there's nothing I can do
First love, she had to be so far away
Just one time, I've been swept away, yeah

Oh, yeah
I've been swept away, yeah
I've been swept away, yeah
