Sammy Kershaw, Chevy Van

I gave a girl a ride in my wagon Now she crawled in and took control She was tired as her mind was draggin And I said get some sleep-and dream of rock and roll

Like a picture she was laying there And moonlight dancing off her hair She woke up and took me by the hand She's gonna love me in my Chevy van And that's alright with me

Her young face was like that of an angel And her long legs were tanned and brown Better keep your eyes on the road son Better slow this vehicle down 'cause

'Cause like a picture she was laying there And moonlight dancing off her hair She woke up and took me by the hand She's gonna love me in my Chevy van And that's alright with me

I put her out in a town that was so small You could throw a rock from end to end A dirt road main street, she walked off in her barefeet And it's a shame I won't be passin' through again

Like a picture she was laying there And moonlight dancing off her hair She woke up and took me by the hand We made love in my Chevy van And that's alright with me

Yeah like a picture she was laying there And moonlight dancing off her hair She woke up and took me by the hand We made love in my Chevy van And that's alright with me

All right with me
