

# Sanctity, Laws Of Reason

Within the screaming system a burning fever hides  
Temperature rises in a sea of bodies in the depths the pressure boils  
Uncontrollable chaos, madness in the mob  
Look at the faces around you, collective conscience for all

Wait for the time to open the gates  
Break with fury what it may create

Witness the decay of order  
Where is your system now

Then the noise begins to shake the very ground  
Chaos in every direction, every face a blur of sound  
Wild eyes of the mob unified in sight  
Joined by the energy of insanity

Wait for the time to open the gates  
Break with fury what it may create

Witness the decay of order  
Where is your system now  
Heres to the fall of the laws of reason  
Let the madness out

Ripping pain of freedom  
Boundaries overthrown

Witness the decay of order  
Where is your system now  
Heres to the fall of the laws of reason  
Let your system down

Witness the decay of order  
Where is your system now  
Heres to the fall of the laws of reason  
Let the madness out
