

# Sanctus Real, Hero

You might think, you'll never be the one to save the day  
Or do anything that matters in the world  
But god can take your ordinary life and do great things  
When you step out in faith

[Chorus:]

You don't need to be the biggest in life  
Don't need to be the strongest to fight for what's right  
Cause a hero's great for who they are inside  
Don't need to be the tallest in line  
You could be the smallest in size  
And if your heart's right, you could be our hero tonight  
So will you take, the little that you have, and make a change  
For the weak and helpless in the world  
If you embrace the journey that's before you, lead the way  
Your faith will guide you  
And in your weakness, you will find your strength

[Chorus:]

Don't need to be the biggest in life  
Don't need to be the strongest to fight for what's right  
Cause a hero's great for who they are inside  
Don't need to be the tallest in line  
You could be the smallest in size  
If your heart is right, you could be our hero  
And if you feel afraid, when the road ahead looks hard  
Follow your heart  
You could be the flame, for a world that fears the dark  
Brighter than the stars  
Don't need to be the biggest  
Don't need to be the strongest  
To do what's right  
Cause heroes are great for who they are inside  
Don't need to be the tallest in line  
You could be the smallest in size  
And if your heart is right, you could be our hero.
