

Sanctus Real, The Face Of Love

I've seen your face on stained glass, in colored lights
In pictures of you looking to the sky
You've been portrayed a thousand different ways
But my heart can see you better than my eyes
'Cause it's love that paints the portrait of your life

[Chorus:]

The face of love

The face of love

You look more like love every day

I've read your words in the pages of your life

And I've imagined what you were like

I may not know the shape of your face

But I can feel your heart changing mine

And your love still proves that you're alive

[Chorus:]

You are the face that changed the whole world

No one too lost for you to love

No one too low for you to serve

So give us the grace to change the world

No one too lost for me to love

No one too low for me to serve

Let us see... let us be your face

[Chorus:]
