Sandra, La Vista De Luna

i know the name of a lonely place it's called: la vista de luna when you're a part of the island-life you feel so warm inside

uh, heaven's child uh, here's what you find

give me another
just another sign of love
an' i say: la vista de luna
love is a brother
under cover of the moon
i'll show you
it's really in my mind
when your part is done
even love could fade away
if you got to leave
just leave me on
la vista de luna

it's not the face of the moon tonight it's just la vista de luna and if you promise to hold me tight i feel so warm inside

uh, all my life uh, i'll stay by your side

give me another
just another sign of love
an' i say: la vista de luna
love is a brother
under cover of the moon
i'll show you
it's really in my mind
when your part is done
even love could fade away
if you got to leave
just leave me on
la vista de luna
