

# Sandra, Seal It Forever

Can I find the words to say  
How I feel tonight  
We are astrange  
We can turn the time  
Just look at me  
I'm so scared  
Would you be here  
if I was sad, would you do?

I wanna be your guiding light  
I wanna stay right by your side and  
Seal it forever with love  
I wanna say how much i care  
Wanna tell you I'll be there  
And seal it forever with love

Will you let me down someday  
With a heart that burned  
I call on you  
We must live and learn  
Just look at me  
I love you  
I still believe in what we do  
I count on you

I wanna be your guiding light  
I wanna stay right by your side and  
Seal it forever with love  
I wanna say how much i care  
Wanna tell you I'll be there  
And seal it forever with love

Baby I know that you matter in my eyes  
A long time I was wondering why  
Maybe I was follish and child  
But now I know that's true love  
Love I can deny it

Now my life is in your hands  
Seal it forever

I wanna be your guiding light  
I wanna stay right by your side and  
Seal it forever with love  
I wanna say how much i care  
Wanna tell you I'll be there  
And seal it forever with love
