

# Sandra, The Way I Am

In the beginning was the word  
And they taught us to believe  
And respect the person next to you  
Like it was you  
When I'm dreaming see this light  
When I'm speaking close my eyes  
Words are reason  
Just a fragment part I feel in my heart

I can't get through to you  
How can I find the truth  
Have we gone too far to make it real  
We just can't change a thing

This is the way I feel  
Can't you hear me  
This is the way I talk  
Baby  
This is the way I go  
Just believe me  
That's the way I am  
Na, na, na...  
That's the way I am

I'm moving backwards to go on  
I've searched solutions for too long  
Did I miss the start when I first met you  
There was no taboo

I can't get through to you  
How can I find the truth  
Have we gone too far to make it real  
We just can't change a thing

This is the way I feel  
Can't you hear me  
This is the way I talk  
Baby  
This is the way I go  
Just believe me  
That's the way I am  
(That's the way I am)  
Na, na, na...  
That's the way I am

Yes I (I know)  
I ain't perfect  
That's the nature of nature  
But I don't care anymore  
That's the way I am

I just can't change a thing
