

Sandra, You And I

Changes
Turning my pages
What's gone is gone
You gonna show the way

Changes
Over the edges
In all I seem to you
It's always been the same

Take the pieces of my heart
Watching all rearenge

You and I belong together
You and I too proud to lie
Don't know why it took so long
Till' we've got this far

You and I
You and I
Could love
Could love
Forever
All forever in love

You and I
You and I
Are known
Are known
For a try

In the mirror of your eyes
I am not alone
You and I

Secrets
Tell me the story
I know you well
I wannna hear it all

Secrets
Power 'n' the glory
We're on the edge of love
I found this way before
Let the heavens fall apart
Let the else fade away

You and I belong together
You and I too proud to lie
Don t know why it took so long
Till' we got this far

You and I
You and I
Could love
Could love
Forever
All forever in love

You and I
You and I
Are known
Are known
For a try

In the mirror of your eyes
I am not alone
You and I

You and I belong together
You and I too proud to lie
Don't know why it took so long
Till' we've got this far

You and I
You and I
Could love
Could love
Forever

You and I
You and I
Are known
Are known
For a try

In the mirror of your eyes
I am not alone

You and I
You and I
Would love
Woud love
Forever
All forever in love
