

# Sandwich, Two Trick Pony

I want to move on  
Not realizing I was moving too slow  
Tried to hang on  
But there was nothing left for me to hold

It's such a shame that you can't be with me tonight  
I'm spinnin' round in cycles  
Hope you change your mind  
Before the show is over  
I look around, it's you I thought I find

I've Been on standby

Not realizing I was moving too slow

Instant replay  
But there was nothing I can do about it

Still in denial  
I can't believe that you can do this to me  
No lights ahead  
I've been looking forward but I could not see

I have been waiting for you all night  
Under the glow of the satellite
