Sandy Denny, No Man's Land

Hey, come and make it easy
Hey, come and make it black
It's no use to be free
If lies are all the truth they see
They'll screw up what you do
When you're through

Hey, come and make it easy
Hey, come and make it black
If you need a friend

And you need a way to loose the end
You know a place for you
When you're through

Hey, come and make it easy
Hey, come and make it black
It's no use to be free
If lies are all the truth they see
They'll screw up what you do
When you're through
