

# Sandy, Say It Again

I thought love it had passed me by  
forgot to linger  
then suddenly I don't know why  
it all seemed clearer

Only three words long  
you meant everyone  
I know  
(I got your message baby)  
play it on and on  
like my favourite song

Chorus:  
Say it again  
say that I'm the only one  
say it again  
baby I'm on my way back home  
and I'm feeling like I'm flying  
on the wind  
(like I'm flying on the wind)  
all you got to do is  
tell me that again

Slowly but sure I take a breath  
pinch myself harder  
(never say never)  
sometimes we need a little faith  
there lies the answer

Only three words long  
everyone so strong  
I got your message baby  
(and it's three months old still I play  
it on and on)  
nothing gets me down when I hear  
that sound

Chorus

Used to feel like I was  
tattered and torn  
just a little love worn  
(just a little love worn)  
and it's such a lonely place to be  
(say it, say it, say it)  
for a little while I thought that I was afraid  
to find  
(what maybe had be)  
I just wanna hear you say it again  
(I just wanna hear you say it)

Chorus 2X
