Santana, Stormy

STORMY You are the sunshine, baby, whenever you smile But I call you Stormy today All of a sudden that ol' rain is fallin' down And my world is cloudy and gray You've gone away

Old Stormy Stormy Old Stormy Stormy Old Stormy Stormy Old Stormy Stormy

Yesterday's love was alive, the warm summer breeze But like the weather you changed Now things are dreary, baby, windy and cold And I stand alone in the rain Callin' out your name

Stormy Stormy Stormy Stormy Come back to me Stormy Stormy Stormy

Bring back that sunny day
