Sara Evans, Niagara Falls

Song Title: Niagara Artist: Sara Evans

Standing at the edge of this cliff Gravity being what it is I'm afraid that I might stumble 'Cause I've never been this high I'm so carried away by this place And the simple beauty of your face Then the walls start to crumble And I'm helpless to fight

Chorus:

'Cause you can't ask the sun not to shine
And no one's ever found a way to stop time
Oh baby it's unstoppable
I can't resist at all
I would never try to slow down the wind
Baby it just has to be what it is
And asking me not to love you
Is like asking Niagra not to fall

I can't worry my heart with what if Oh maybe I should just give in And wrap myself around you And let you take me down Take me down

Chorus:

'Cause you can't ask the sun not to shine
And no one's ever found a way to stop time
Oh baby it's unstoppable
I can't resist at all
I would never try to slow down the wind
Baby it just has to be what it is
And asking me not to love you
Is like asking Niagra not to fall

Oooh, Yaaa

No you can't ask the sun not to shine
And no one's ever found a way to stall time
Oh baby it's unstoppable
I can't resist at all
I would never try to slow down the wind
Baby it just has to be what it is
And asking me not to love you
Is like asking Niagra not to fall

Oooh, Yaaa

Rain, rain, rain, down on me Wash, wash, wash, over me Fall, fall, fall, into me
