## Sara Evans, The Great Unknown

Fire up the motor baby, I'm already packed I'll ride shotgun, navigate, throw the cooler in the back Let's try and get us lost Anywhere you want to go Come on show me the other side of the great unknown

Well I've never rocked the Rockies Never sinned in Santa Fe I want to stand on a corner in Winslow, Arizona someday And just take it easy Drive me down a desert road Come on show me the other side of the great unknown

'Cause I'm tired of being careful I'm sick of staying home I just want to see a little of the great unknown Take a right, take a left, I don't really care It doesn't matter where we end up Baby I can love you anywhere

I will be a waitress, you could work on cars Find ourselves a KOA and sleep underneath the stars Just living and a loving Baby don't say no Come on and show me the other side of the great unknown

Hey I'm tired of being careful I'm sick of staying home I just want to see a little of the great unknown Take a right, take a left, I don't really care It doesn't matter where we end up Baby I can love you anywhere

I will be a waitress, you could work on cars Find ourselves a KOA and sleep underneath the stars Just living and a loving Baby don't say no Come on and show me the other side of the great unknown Yeah come on show me the other side of the great unknown
