

Sarah Bettens, Stay

So we search a great surprise
To wake up to your disguise
You pretend you're just like us
But you my piece of mind
You can take the mood I'm in
And turn it into something that's alright
Oooh It's alright

Chorus:

Things can get much better
You might have to stay
To make sure I'll never
Forget about today
You might have to stay
You might have to stay

I don't really wanna know
How this story will unfold
I can only hope you'll wait until it's told
I go out and find my way
You can do the same but I kneel
Oooh you
I can be alone but only when I'm holding you

Chorus:

Things can get much better
You might have to stay
To make sure I'll never
Forget about today
You might have to stay
You might have to stay

You're already there
The only ones here

Chorus:

Things can get much better
You might have to stay
To make sure I'll never
Forget about today

Things can get much better
You might have to stay
To make sure I'll never
Forget about today
You might have to stay
You might have to stay
You might have to stay
