

# Sarah Blasko, New Religion

In my new religion  
I escape the tension  
In my true confessions  
You're worth a mention  
In my new religion  
I'll forgive no transgressions  
In my confrontations  
In my legislations

But you don't know me  
That well  
But you follow me  
I can tell  
Take one step forward into the light and say  
Ooh

In my new religion  
Forgive my obsessions  
Go back before it all began  
Go back before it all began  
Yeah, yeah, yeah  
Yeah, yeah, yeah

But you don't know me  
That well  
But you follow me  
I can tell  
Take one step forward into the light and say  
Ooh

But you don't know me  
That well  
But you follow me  
I can tell  
Take one step forward into the light and say

Ooh

In my (ooh)  
Ooh (ooh)  
Ooh (ooh)  
Ooh (eeh)  
Ooh  
Ooh (eeh)
