

# Sarah Brightman, I've Seen It All

Self fulfilling prophecies  
Strangers stealing someone else's dream

I've seen it all

Fighting for my dignity  
Running for your life in times like these

I've seen it all

I remember the time  
Once in a life, you hold me

Got you here in my head,  
Here in my head, here in my hand for safety...

I've seen it all...  
seen it all  
I've seen it all...  
seen it all  
I've seen it all...

Waiting on a bed of nails  
Time is running slow until it ends  
I've seen it all

Fighting for my dignity  
Running for your life in times like these

I've seen it all

I remember the time  
Once in a life, you hold me

Got you here in my head,  
Here in my head, here in my hand for safety...

I've seen it all...  
seen it all  
I've seen it all...  
seen it all  
I've seen it all...

Like I've never seen before  
Catching up a smile instead of frown

Asking you to never let me down

It will never be the same forever
