Sarah Connor, Call Me

[Verse 1]
Tell me what should I do
Just seems I'm falling so deep into you
Why did it take me so long to find
Someone so perfect, someone so right
I have imagined this moment for life
I have spent many days and so many nights
Holding my pillow as I close my eyes

[Chorus]
Baby, just call me if you need me baby
You can reach me baby
Baby, just call me if you need me I'm there
Anytime I'll me there trough it all, baby

[Verse 2]
I have known so much pain
Now that you've come and cleared all of my rain
You are my sunshine all trough the rain
Everything you do just seems so right
So right
I'm not afraid to go on more
You've picked me off the floor
Cause of you that I live

[Chorus]
Baby, just call me if you need me baby
You can reach me baby
Baby, just call me if you need me I'm there
Anytime I'll me there trough it all, baby

[C-part]
I have spent so many nights dreaming about
Finding that someone that fits my life
So full of passion, so full of life

[Chorus]
Baby, just call me if you need me baby
You can reach me baby
Baby, just call me if you need me I'm there
Anytime I'll me there trough it all, baby
