

Sarah Connor, For The People

This is for the people
Who do understand
That it's all about
Give and take and what you make
You'll get in the end

This is for the ladies
Who don't give a damn
When the people say: "Paint your face and keep your grace and stand by your man"

This is for the fellas
Who do understand
It ain't all about
Sex and drugs and money sucks
If you only pretend

[Bridge:]
And when the lights go out today
I hope that you all get into what I say
There's nothing greater than human love
It is brought by nature or sent from up above
