

Sarah Connor, I Wanna Touch U There

[verse 1]

Oh baby when the night
Falls on you and I
I wanna be with you and share each breath you're breathing
And I want your heart
Want it pressed so close to mine
I wanna lose myself forever in this feeling

[bridge]

I can't wait to feel that heaven in your arms
So tell me how to get, get to your heart

[chorus]

I wanna touch you there
I wanna touch your heart
I wanna make you love me
I wanna be the one to touch you everywhere
So deep inside your soul
I wanna make you feel a love
So real so deep so true
Your heart your soul and everywhere
I wanna touch you there, I wanna kiss you there
I wanna touch you there

[verse 2]

Oh baby want your eyes
Want them looking into mine
I wanna see the things that they will be revealing
and I want your lips
Wanna hear them say my name at night
I wanna be in each exiting dream you're dreaming

[bridge]

I can't wait to taste your kisses in the dark
And I can't wait to get, get in your heart

[c-part]

Wanna hold you in my arms tonight
Lie beside you while you sleep
Fill your world with love so strong
A love that goes so deep
I wanna touch you
In your heart
