

# Sarah Connor, Magic Ride

Come on let me take you on a magic ride  
Boy I wanna show you better ways to fly  
Whatever you wish for  
I'll do it for you  
All the other girls are a waste of time  
Whatever they may have ain't as good as mine  
Whatever you wish for  
I'll do it for you  
I can light a fuse in you  
Make you finally see all the things you need  
If you wanna know the truth then you must believe  
It's hidden here in me  
When you finally cross the line  
I know that you'll be mine  
Boy you make our dreams come true  
You know you only have to let go  
That I can begin to show  
What I've got for you  
Come on  
I can see it in your eyes  
You've got the spark I need to set my spirit free  
And we don't even have to try time is on our side  
And we can be complete  
When you finally cross the line  
I know that you'll be mine  
Boy you make our dreams come true  
You know you only have to let go  
That I can begin to show  
What I've got for you
