## Sarah Connor, Soothe My Soul

Some time ago my life was gettin out of hands I thought I'd lose my mind I didn't see a chance There was no ending to the trouble in my heart No matter where I looked my world seemed to fall apart But you were there to hold me up and make me strong You found a way for you and me to carry on

## Chorus:

There's a silver lining in the darkest cloud When I'm down and out I take a look around All the love and joy you brought to my home You soothe my soul, baby, you soothe my soul When there ain't nobody nowhere's left to turn Still I'm warm and safe 'cause for you I burn When my life is getting out of control You soothe my soul, baby, you soothe my soul

Ah ah ah ah, you soothe my soul Ah ah ah ah, you soothe my soul

Sometimes I struggle and my goals get outta reach You come to ease my mind and give me energy You look behind the show of sexy Sarah C. You know about my fears and insecurities Joy and pain together, yes, we had it all

Sometimes we fly so high, and yes, sometimes we fall

## Chorus

Won't back down, I won't back down Baby I won't back down, I won't back down

Won't back down, I won't back down When you're with me, I'll stand my ground I won't back down...
