

Sarah Masen, Hit And Run

I got caught up in my own right
I didn't notice all the search lights
And getting caught up in my own right
I think I killed a man

I was on my way - I was on my way
Should I stop or should I stay
I didn't know him anyway
Should I see if he's okay

I got caught up in my own sight
I didn't notice all the search lights
And getting caught up in my own sight
I think I could lose my soul

I was on my way - I was on my way
Should i stop or should i stay
I didn't know him anyway
Should i see if he's okay
Does he even have a name

I got caught up in my own rights
