Sarah McLachlan, Witness

Make me a witness take me out out of darkness out of doubt

I won't weigh you down with good intention won't make fire out of clay or other inventions

Will we burn in heaven like we do down here will the change come while we're waiting

Everyone is waiting

And when we're done soul searching as we carried the weight and died for a cause is misery made beautiful right before our eyes will mercy be revealed or blind us where we stand

Will we burn in heaven like we do down here will the change come while we're waiting everyone is waiting
