

Sarah Slean, Ogoni Star

Theres an ogoni star in the sky shining, shining bright
There are stars of your brothers in the sky, shining, shining bright
And you cant say, youre not afraid
You cant say youre not afraid
But If I stopped to listen would I burn with them, would I waste the night
So dance you people dancing away, your lonely tears
Dance for freedom, dancing away, you lonely tears
Do you see the stars in the sky shining, shining bright
I see stars and the sisters in that sky shining, shining bright
Oh you cant say youre not afraid
Oh almost, were all afraid
If I stopped to listen, would I burn with them, would I waste the night
So dance you people dancing away your lonely tears
Dance for freedom dancing away, your lovely tears
Dance you people dancing away, your lonely king
Dance for freedom, dancing away you lonely king
