

Satanic Surfers, And No One Can Deny

The rivers state internal security task force is handling the security in the oil regions of Nigeria with
Enriching a small minority
While the vast majority becomes increasingly impoverished
And no one can deny that severe human rights violations have been committed in relation to the oil
(No one can deny) [x5]
And no excuse can ever be enough
For the genocide of the Ogoni people [x2]
How quickly truth can be silenced, news rearranged and adjusted when the price is always right and
Economical profit is valued higher than human life, higher than human life
And no one can deny that severe human rights violations have been committed in relation to the oil
(No one can deny) [x5]
And no excuse can ever be enough
For the genocide of the Ogoni people, yeah
