

Satanic Surfers, Don't Let Silence Be An Option

they globalize hunger and they globalize
war make people into commodities and
they profit even more how much longer
can we act as passive bystanders? while
3/4 of the human race are living in extreme
poverty while 3/4 of the human race are dying
in extreme poverty in the stranglehold of capitalism
some say we make mountains out of molehills but if
we don't compromise with human lives every compromise
is a failure one step forward two steps back if they
globalize resistance don't let silence be an option.
