

Satanic Surfers, Lean Onto You

The way you look at me with your thoughtful blue eyes makes my heart smile and the sound of your voice
It feels so good having you around, you cheer me up when I feel down, I can lean onto you
You support me in everything I do, when I give up you give me hope and I hope one day I'll find a way
It feels so good having you around, you cheer me up when I feel down, I can lean onto you
I think it's long and it's
Simple the proximity, I think it's long and it's
Complex inclusively
When I feel down I can lean onto you [x3]
[x2] (Lean onto you)
When I feel down I can lean onto you [x2]
