Savatage, Forever After

You watch the news on your color tv Are you immune to what you see Death and destruction Till it numbs your mind To the rise and fall of all mankind

Hey you
What ya gonna do
When it's your world they're selling out
But, you got your plot
Smokin' your pot
Till the trees are all dead
You never knew, hadn't a clue
You can't hide your head, head
In your hands
Nobody's safe
Forever after

Let's kill the leaders Make it end But then we realize We are them

We buy the plastics Burn the fuels We make the choice We are the rules

Hey you
What ya gonna do
When it's your world they're selling out
But, you got your plot
Smokin' your pot
Till the trees are all dead
You never knew, hadn't a clue
You can't hide your head, head in your hands
No one's safe
Forever after

Hey you
What ya gonna do
When it's your world they're selling out
But, you got your plot
Smokin' your pot
Till the trees are all dead
You never knew, hadn't a clue
You can't hide your head, head in your hands
Nobody's safe
Forever after
Forever after
Forever after
Forever after
