

Savoy Brown, Big City Lights

Bob Hall/ Chris Youlden-Chrysalis Music Ltd.

I've been a long way from home and I can't sleep at night

I've got a funny feeling something just ain't right

I'll just stand here watching the big city lights

I keep thinking 'bout my baby, bound to go away

Well she's gone and leave me yes, she's gone to stay

Now I'll get even baby some sweet day

I've been a long way from home and I can't sleep at night

I've got a funny feeling something just ain't right

I'll just stand here watching the big city lights

I've been a long way from home and I can't sleep at night

I've got a funny feeling something just ain't right

Got a long way from home and the big city lights
