

Savoy, We Will Never Forget

We will never forget
Those times
We will never forget
Our lives

Head in a cloud
Ears to the ground
We're making the wind rush by
But my baby
Well, she don't know me
For all of the years gone by

We will never forget
Those times
We will never forget
Our lives
We will walk through the fields
All right
We will know how it feels
All right

Your face to the wind
Eyes to the rain
You're holding your head up high
But my baby
Well, she won't show me
For all of the tears we've cried

I will never forget her
Standing there
We will never belong
Elsewhere...
But the summers are good
Oh yeah
Nothing misunderstood, oh no

Head in a cloud
Ears to the ground
We're making the wind rush by
But my baby
Well, she don't know me
For all of the tears we cried
We will never forget
Our lives
