

# Saxon, Gonna Shout

We're gonna shout let it rock (\*)  
We're gonna shout let it roll  
We're gonna shout let it rock  
We're gonna shout let it roll

Are you feelin' hot, are you ready to rock  
I'll take you to the edge, show me what you got  
Are you looking for some action  
Show me your reaction  
You gotta raise your voices high  
Rock will never die

(Repeat \*)

Standing on your seat, can you feel the heat  
The flames are getting higher, look into the fire  
Can you feel it in your head  
We're gonna wake the dead  
You gotta raise your voices high  
Rock will never die

Can you hear me, are you there  
Shout it out  
If you're with us tonight
