

# Saxon, Rock'n'roll Gipsy

White line fever, takes me high  
Another city, another lie  
Another town, another face  
Another woman to take your place

Catch the bullet, ride the storm  
Drive me crazy 'till the dawn  
Like an eagle flying high  
Look for freedom in the sky

She's a rock 'n' roll gipsy (\*)  
Don't go breaking my heart  
She's a rock 'n' roll gipsy  
She's gonna tear me apart

Rolling thunder, moving on  
Another time, another song  
Another room, another night  
Another dream, another fight

Keep on moving down the line  
Gipsy woman on my mind  
Ask no questions, tell no lies  
See the answers in my eyes

(Repeat \*)
