end of printout

Dark was the night right out of nowhere
Airborne warriors of a different kind
Solid as steel, galactic soldiers
Take the world in their hands

Thousand light years we had overcome
Across the universe
It's a long way to the landing ground
The mission gets real

Human appearance electric inside
Solar batteries and a microchip brain
Android angels on wings of laser
Taking life in their hands

Thousand light years we had overcome
Across the universe
It's a long way to the landing ground
The mission gets real

Life! Light! Life! Let us out on the loose
Hide! Hide! Among the living
Life! Light! Life! Curing mankind's disease
Ride! Ride! Far away

Thousand light years we had overcome
Across the universe
It's along way to the landing ground
The mission gets real
