

# Scanner, Wonder

Emptiness inside my purse  
And in my pockets too  
Hell, I guess there is a giant-hole  
Where all the cash falls through

All I need  
All I need's a wonder  
I need a wonder

I need a new microphone  
A pair of leather boots  
Tell me  
How can I play my next metal show  
And save me from surrender

Some days I dream  
Someone would beam  
A giant heap of money straight for me

I need a wonder  
Wonder to rescue me  
I need a wonder  
Wonder to save my soul  
I need a wonder  
Wonder to save me from a fall  
I need a wonder  
A wonder to rescue me from fallin'

Millions of guys around the world  
Havin' the same dream  
Tryin' to live rock'n'roll  
And get into the scene

Waitin' months and years to play  
In always changing bands  
Other guys do serious work  
Earn money with their hands

I need a wonder  
Wonder to rescue me  
I need a wonder  
Wonder to save my soul  
I need a wonder  
Wonder to save me from a fall  
I need a wonder  
A wonder to rescue me from fallin'
