

# Scar Symmetry, Artificial Sun Projection

An invented sun, rays reflecting the cosmic glow  
Deceptive radiance  
Our invented gods halt the active mind  
No alteration

Illusory acts in circles count the days and nights  
Earth time  
Finding the only way out means to arise, ascend

I shall ascend

Form the passing time, building day and night

Thy will be done, share the sand to hours  
My time will come, clear as day the signs  
Conceptional, shape the hands of ours  
Your will's been done since the dawn of time

Forever to renew the universe  
Waiting as cold daylight turns into night

An invented sun, rays reflecting the cosmic glow  
Deceptive radiance  
Our invented gods halt the active mind  
No alteration  
Thy will be done, shape the sand to stars  
My time will come, clear as day the signs  
Conceptional, shape the hands of ours  
Your will's been done since the dawn of time
