

Scarling., Hello London

Hello London

I am aching you are still

Don't find you arrogant

Fascinated - Unfulfilled

While people far away wish me harm - they wish me ill

Not you, kiss you on the mouth oh yes - oh yes I will

We are paranoid

All our friends agree

Lately I've forgotten you

Know you'll remember me

Cause I am spinning round and round like a record in your head

Seizing your subconscious until you wish me dead

Hello LA

With your mesmerizing stare

I know I'm not in love with you

Though I highly doubt you care

While people crowd your streets - choking on your poisoned air

Not me, kiss your dirty mouth oh yes- oh yes I dare

We are paranoid

All our friends agree

Lately I've forgotten you

Know you'll remember me

Cause I am spinning round and round like a record in your head

Seizing your subconscious until you wish me dead
