## Scarling, (Northbound On) Cahuenga

She's precious and perfect

While easily broken

Dear sister, You missed her

She's already spoken.

She whispers and Blisters

She Talks and conspires

She spits at the walls and fucks all the liars.

Now I see you driving in her car

Now I See

Now I see you, Now I see

Now I see you driving in her car

He's handsome- Hopeful

So easily recognized

Dear Brother-

Discovered, she left no good byes

He's acting, Not knowing

He drinks and perspires

Shatters mirrors- reflecting his desires

Now I see you driving in her car

Now I see

Now I see you - Now I see, Now I see you

Driving in her car

Driving in her car

Driving in her car

Then you held my hand

As she drove away

As she drove away

As she drove away
