

Scars On Broadway, Universe

A line is drawn up in the sand,
Is this the way to no-where land?
You never seen the sky like this,
You never want to die like this

Comets falling for the earth,
Is this the end or a re-birth?
You Never seen the sky like this,
You never want to die like this

Mother,
Are we flying through the universe?
Are we dying through the universe?

Fire burning on the sun,
It's killing almost everyone.
You never seen the sky like this,
You never want to die like this.

Dancing in the acid rain,
That's Falling on the streets of shame.
You never seen the sky like this,
You never want to die like this.

Mother,
Are we flying through the universe?
Are we dying through the universe?
We are crying to you mother,
Are we flying to the universe?
Are we dying in the universe?

Mother,
Are we flying through the universe?
Are we dying through the universe?
We are crying to you mother,
Are we flying to the universe?
Are we dying in the universe?

Comets falling for the earth,
Is this the end or a re-birth?
You never seen the sky like this,
You never want to die like this.
