

Scary Kids Scaring Kids, Free Again

We are out of our minds
We cant live this way forever, forever
So run, run with me from the ordinary
Its our time to escape lose ourselves

If we can find a way to break this chain
Within this natural cycle
Leave your answers behind we'll be there to decide
If we can find the strength to go our own way, go our own way
It will take your breath away; will take your breath away

We are out of our minds
We cant live this way forever, forever

We finally found a way to make the change we'll make the change together
We finally found the strength to go our own way to go our own way

Now we are free again, we are free again, we are free again

Do I have your attention?
Look what we can create
It will take your breath away; will take your breath away, away
Do I have your attention?
Now's our time to escape
Found strength to go our own way

Now we are free again, we are free again, again
Now we are free again, we are free again; again, again, we are free again
