

Scary Kids Scaring Kids, Holding On

Just trying to find your way anywhere
But you've come to find you're alone
Its getting dark and you've lost your way
I haven't let you go as long as you know that..

I'm losing what's left of my dignity
But ill fight till the end for her heart
Ill never give up for what's possibly
For better for worse this love must be cursed

Just try to keep your head down
But you come to find that trust has come and gone
Everyone out there is listening
But you don't care at all and you're probably glad to know

I'm losing what's left of my dignity
But ill fight till the end for her heart
Ill never give up for what's possibly
For better for worse this love must be cursed

You already let it pass through your lips you can't take it back now [x4]

I'm losing what's left of my dignity
But ill fight till the end for her heart
Ill never give up for what's possibly
For better for worse this love must be cursed

Holding on to her
This love must be cursed
I'm holding on to her
This love must be cursed
I'm holding on

I'm afraid to say she never made it home
Couldn't keep her head on
She was so close
I'm afraid to say she never made it home [x5]
