

Scaterd Few, Future Love

Titanic transmission read out
With a cosmic teenage drive
Hailing frequency screams out of line
About moralities failure to guide

Another hatch is ready to blow
Because the rocketman wants inside
And all the cophesis kids need to do
Is let the mercury level subside

You better purge your cache and wait
Before you're out with a virus - status: terminate
Countdown: ceremonial time before you make connection
Prior to a coupling you better get the signals straight

Autopilot and the galaxy twins
Launch a beacon in premarital 5
It seems their afterburners went off line
Before their abstinence was given a try

Another hatch was ready to blow
Because the rocketman wanted inside
And all these cophesis kids had to do
Was let the mercury level subside

You better purge your cache and wait
Before you're down with a virus - status: terminate
Countdown: ceremonial time before you make connection
Prior to a coupling you better get the signals straight

The Prime Directive:
Elutriation
Not contamination
Quest illumination
4... 3... 2... 1...
