

Scaterd Few, Suspension My Love

Fear swept and falling
Silently touching the ground
Clearly observing
Pointing a bony finger

Wings of deception
Constantly crashing me down
Engaging the sliding
Mournful the empty lingers

(Crying all fall) Down in the planet's belly
(Making lawful) Sounds of the sorrow sentry
(Searching under) Stand with the God sent humans
Cast the crown

Let your sight (Fulfill)
The clouding in my eyes
I'll be the wind (In your sails)
And chart the savage tides

(See the brave-) less Listless and stifled
(Seal the grave) We've dug ourselves tonight

She's a killer (untamed)
Footloose and fancy free
Taking root in (solitude)
Universal casket dress

Let the mirror (unfold)
Reflecting in guilty horror
Embedded hurting (inside)
The others I despise

(See the brave-) less Listless and stifled
(Seal the grave) We've dug ourselves tonight

(Be afraid) Rest assured for the morrow
(Seize the day) For soon the Moon will rise

Suspension

The place we seek is in our hearts
Suspension my love

(See the brave-) less Listless and stifled
(Seal the grave) We've dug ourselves tonight
