Everybody party down to Louisiana  
Everybody jam yeh  
everybody come and take a ride with me  
follow me everybody  
let's head down south to the land  
with the man with the message  
his name was Satch  
and he played on the match  
everytime he played the horn  
another blues was born  
everybody's saying  
that the way he was playing  
had the whole world praying  
that he never gonna stop  
he talks to Scatman all about scat  
he's the father of it all  
as a matter of fact.  
Louis was a legend in New Orleans  
and the Louisiana Dixieland scene  
he made a decision that the old time religion  
to be played out the horn  
and the Satchmo's breathing deep  
in my soul, let me sing it to you  
hallelujah hey hey whaddya say?  
Everybody party down to Louisiana  
everybody jam  
everybody come an take a ride with me  
hey hey whaddya say  
get out the way  
let Louis play  
take a lessons that I learnt  
from Louis, he only give it to us  
'cause he knew it would renew us.  
Love is the answer  
Scat's where it's at Louis said  
even you could teach a cat scat  
shouldn't be talking about it  
talking to you  
Louis was one swinging happy guru  
If you wanna hear the greatest trumpet  
in the world well sing along with me  
sing along  
now join me in the opening  
and join me in the bow  
singing in the sunset  
singing at the dawn  
you've gotta get it up  
if you want to get it on  
Scatmo's breathing deep in my soul  
Let me sing it to you  
hallelujah hey hey whaddya say  
get out the way  
let Louis play!  
Everybody party down to Louisiana  
everybody jam  
everybody yeah

everybody come and take a ride withe me
