

# Scatterbrain, Dead Man Blues

(Brogna / Christ)

I went to a doctor with a pain in my head  
He said: "Tumor boy! Six months you're dead,  
It's gonna be slow and painful  
It ain't gonna be no fun"  
So I went home and decided  
I'll end it now my life's done

Game Over, end of the ride  
It's suicide!!!

So I took out a shotgun, I put it in my mouth  
I put it in too far, I gagged then ralphed  
I jumped in front of a truck  
I missed and only felt a breeze  
Then I tried a bus, the driver stopped and said:  
"Exact change, please!!!"

I survived, was still alive!

I dropped a toaster in the tub with me  
It did wonders for my hair  
Was gonna drive myself right off a cliff  
Got lost on my way there  
I took a jar of sleeping pills  
But all I did was snooze  
I can't do nothing right  
I got the Dead Man Blues!

Can't get it right  
I'm feeling so uptight  
I can't die I gotta wonder why  
I try and try and try but I can't die  
I've got the Dead Man Blues  
'Cause even if I win I lose

I threw a rope around the rafters  
Around my neck, stood on a chair  
The phone rings, my machine picks up  
And guess who's there?  
It's a message from my doctor  
And he says: "Hey lucky break!  
It was just a dirt on the X-ray  
Whoops! I made a mistake!"

And then I slipped off the chair  
And I was hanging there:  
I've got the Dead Man Blues  
'Cause even if I win I lose  
The Dead Man Blues
