

Scheer, You Said

I spend
Half my life
Sleeping
And I spend
half my time
Dreaming

That life
Isn't what you said it would be life
Isn't what you promised me
Ask you said and you would give it to me
Pray you said and want you want you with me

I can't stop from thinking
Something
Has to happen
To break silence
Echo inside
Leaves me
Funny how life

Isn't what you said it would be life
Isn't what you promised me
Ask you said and you would give it to me
Pray you said and want you want you with me

My life isn't what you said it would be life
Isn't what you promised me
Ask you said and you would give it to me
Pray you said and want you want you with me

I spend
Half of my life
Drinking
And then I spend
Half my time
Rethinking
That my life

Isn't what you said it would be life
Isn't what you promised me
Ask you said and you would give it to me
Pray you said and want you want you with me.
