The dream I had of you

The dream I had of you (several times)

I've been here all the time  
you saw the sign, im doing right  
I've always waited for the moment  
that you would come through my door  
but this brought loneliness so far  
I lay my hand on to my heart  
is this the life i want to live?  
is this the dream i had of you?

The dream I had of you

The dream I had of you (several times)
